

## **ETHIOPIA GUJI 3 NATURAL GRAINPRO**

Notes: LEMON ZEST, DRIED RASPBERRY, MAPLE SYRUP, CLEAN

### **ORIGIN INFORMATION**

Grower      Girma Edema | Guji Coffee Export PLC  
Variety      Indigenous heirloom  
Region      Kercha District, Guji Zone, Oromia Region, Ethiopia  
Harvest      October – December  
Altitude    1800 – 2200 masl  
Soil          Vertisol  
Process      Full natural and dried on raised beds  
Certifications

### **BACKGROUND DETAILS**

This coffee is sourced from the Guji Coffee Export PLC, which is owned and operated by Girma Edema who has more than 20 years of experience exporting coffee from the Kercha district within the Guji zone in the Oromia region of Ethiopia. Coffee producers deliver their ripe cherries to Girma's washing station where the cherries are sorted and immediately placed on raised beds and dried over a period of 15 to 20 days. The raised drying beds are carefully constructed to ensure proper air circulation and temperature control for an optimal drying process. Cherries are also turned regularly on the beds to prevent damage during the drying process. The cherries are stored in a local warehouse after the moisture is reduced to less than 12 percent. Then the beans are transported to Addis Ababa, the capital of Ethiopia, to be milled and prepared for export. Girma's control of processing, from drying up to the final export stage, preserves the coffee from damage and results in an exceptionally clean and sweet cup profile.
