Region San Agustín Loxicha, Oaxaca, Mexico
Harvest January - April
Altitude 1200 - 1350 masl
Soil Clay minerals
Process Fully washed and dried in the sun
Certifications

BACKGROUND DETAILS

This coffee is sourced from Calguera Gomez S.A. De C.V. and thirty-seven surrounding family-owned farms located within the municipality of San Agustín Loxicha in the state of Oaxaca, Mexico. Coffee producers use their own micro-mill to process harvested cherries, which allows for meticulous care in depulping, fermenting, and drying the coffee. Coffee is cultivated on farms that average 10 to 24 acres in size. The Calguera Gomez company aims to organize and support producers with access to the best agricultural practices and consequently pay high prices for higher quality coffee production.
