Variety	Red Catuai
Region	Patos de Minas, Minas Gerais, Brazil
Harvest	May-October
Altitude	1,250 meters
Soil	Clay Minerals
Process	HONEY Process
Certifications	Rainforest

BACKGROUND DETAILS

Descendant of Italians who arrived in Brazil in 1912 to work on coffee plantations, Versi Crivelenti-Ferrero worked for many years in the field seeking the best alternatives to produce good coffees. Currently she accompanies with immense pride the evolution of her two children, Wagner and Virginia Helena Crivelenti Ferrero, who dedicated themselves throughout their lives to the coffee business of the family. Wagner took over the business that passed from father to son five generations ago, in a traditional dream and passion story of the Crivelenti Ferrero family. Together, their properties amount to 850 hectares and are highlighted in competitions, awarded for quality and for actions aimed at care with sustainability, with the environment in which their properties are installed: Mogiana and Cerrado Mineiro.
