Process: Natural 90 hours anaerobic.

Certifications: Conventional

### **BACKGROUND DETAILS**

Finca El Poema was a Discovery of Monica our logistic coordinator in Colombia. Finca and Glamping El Poema was purchased by Sebastian Muñoz with his mother in 2016 after his father passed away.

Sebastian has quite an experience in the coffee industry through work with a company called La Meseta, purchaser and exporter of green beans. With that experience Sebastian made some important changes to the farm, looking to sell coffee that had more value added. That's why he started to produce Natural and Honey coffees. At first the buyers were his past employers and later he decided to venture on his own. That is when Sebastian and Monica met, and the result was the first 8 bags of 35 kilos that sold quite fast. Now we are trying to buy another 29 bags of 35 kilos to add to our Holidays offerings.

Sebastian second passion is tourism. That is how he started the Glamping side of his business. He wanted to give the coffee experience to locals and visitors to the country. He has built seven mini homes that are located inside the coffee plantation. His plan is to build 3 more and then combine coffee and tourism.
